

WINDJAMMER

Project of EVS for long-term 2015-2017

Hello Dear Partners and Future Partners;

As TREX EVS; we are going to submit to Turkish National Agency in order to get grant for sending young people to Europe through EVS. We are going to call this project “Windjammer” as title. We believe that EVS is the long journey which is sometimes dark and cold and hard to struggle against all unknown issues, meanwhile it is helpful and open to share everything with new people around you. Let’s say; EVS is unforgettable moment which teaches you whatever you need. Therefore our volunteers could be the captain of their own ship and come aboard without scuttling.

We would like to provide to Turkish young people to enrich their experience and improve their skills. For young people of Turkey, this issue has highly important because of the lack of awareness of the active civil society and the appropriate information about volunteerism and the meaning of it. Giving to them the chance to join and act in a multicultural society and especially abroad in such a project will stimulate their quest for another way of enriching their experiences and lead them to a more European oriented way of thinking.

HOW TREX EVS PREPARE THE VOLUNTEERS FOR EVS

As non-profit organization we have been sending almost 200 volunteers since 2007 and we make good cooperation with local partners. The most sustainable relation within them is Dokuz Eylül University (DEU); The students of DEU can join all the projects of TREX EVS and can be easily informed for any kind of ERASMUS + program. Young people can have the opportunity like that to learn and join in a daily almost basis to activities that are organized.

PARTICIPATION PROCESS

If you are interested in becoming partner from any programme country in this project and would like to host young people aged 17-30, please reply back by 26th January of 2015 with the following documents:

- Fill the partner identification form (in word format only)
- Complete the mandate, sign and scan (PDF or JPEG format)

If you wonder, who TREX EVS is,

TREX EVS is a non-governmental organization mainly working and targeting to the field of youth, active citizenship and mobility. It based in Izmir of Turkey and is operating in regional but also national level. Since 2007 the dinosaur (symbol of the organization) is keeping up with growing and expanding with the network around Europe, promoting like that the special and so important role of intercultural and lifelong learning, employability, entrepreneurship, connecting Europe and Turkey, history and modernity, past and future, older generations with new ones, knowledge and wisdom of yesterday with the power and dynamic of

tomorrow and young generation.

One of the main goals of our organization is the activation of the volunteer spirit because we deeply believe in the strong role of it for the creation of a better future in many perspectives. In extension this is connected with democracy and orientation of European identity, solidarity, living the experience of moving for studies or working to another country, understand and accept the difference of another culture, bring tolerance among young people, work in a real multicultural environment and learn through this experience the actual cooperation in a international level, gain competences that will improve employability for young people and their quality in their work, help them to obtain skills from non formal education and lifelong learning, understand more about entrepreneurship and creativity and be part of the opportunities that are given from European projects.

Since 2009, we have been coordinating 6 EVS hosting projects and 12 EVS Sending Projects. In addition to this we have been a reliable partner to almost 40 projects.

We're looking forward to making strong cooperation with new partners and keeping on long term relations with our current partners

Best
