# Experiences

## Dance and youth employability, Aubervilliers

In a really good and stimulating atmosphere, the participants have worked together during 10 days in August. They have shared good practices and youth experience and deepened their knowledge about artistic practice. Above all, they have danced a lot, from hip hop to modern dance to body percussions and created together a show. How powerful art is and how helpful it can be for young people with fewer opportunities? Now they get it and they will be able to put all these new skills into practice.

## Females project, Ukraine

Travelling, experiences, women's rights and domestic violence: no doubt there is a strong link for whom have participated to this seminar. Non-formal education, interculturality, creativity and tolerance were prevailing during this rewarding seminar. And you should ask the participants more about Lviv's nightlife, it's worth it!

## Euro-Arab Youth Forum, Strasbourg

With 70 young people from more than 40 countries, the 5<sup>th</sup> edition of this forum was an exciting and intense experience for all the participants. The common thread was the topic of youth and active citizenship but from gender equality to discrimination to interculturality, countless subjects were tackled. The conferences, activities and visits allow the participants to actively debate and bring new ideas of projects to implement. The future will tell us more about all this possible new partnerships.

# International solidarity work camps

## Lebanon

"These children won't let us go. To tell them goodbye will be difficult; the idea of not seeing them again, impossible... The AFEL is a vital structure for each of them. As time goes on, we realise that this association is more than a social and human community; it is a Family, with a capital F." Young volunteers

## Nepal

"There is no word strong enough to describe the three last weeks I have just lived. "Solidarity, friendship, sharing, discovery, travel, happiness, laughter, smile..." all these little words which don't mean a lot alone but, when there are together, they make us rediscover who we are and where we go. "An unforgettable experience which will be indelibly printed in me." Young volunteer

## Morocco

"Objective of the day: finish the work on the welcome center for young partially-sighted persons. We bustle in the garden, we warm up with the painting and we let our artistic flair speak to keep the fresco up on the exterior wall. Morgane, our French volunteer, architect and talented artist, has drawn an amazing sketch on the wall. A small group help her in this task and little by little the wall is turning into a real artwork." Young volunteers
